

UKLID PLUS PRAHA — Growth Case

Cleaning company forecast for Prague: September 2026 to 2030

A scalable local cleaning service can reach strong revenue if it focuses on recurring clients, reliable cleaners, and fast WhatsApp conversion.

2027 target

1.6–2.5M CZK

20–30 recurring clients

2028 target

3.5–5.5M CZK

40–60 recurring clients

2030 potential

10–14M CZK

100–130 recurring clients

Business logic

- 1 Build demand through website, Google, Facebook groups and Instagram.
- 2 Convert fast by WhatsApp: quote, booking, confirmation.
- 3 Push recurring weekly / bi-weekly cleaning plans.
- 4 Use deep cleaning, Airbnb and offices as margin boosters.

Main bottleneck: cleaner recruitment and quality control.

Go-to-Market Engine

Use the website as the hub, then move every lead to WhatsApp quickly

Business Plan & Revenue Potential

Realistic growth scenario, gross revenue in million CZK

*September–December only

Operating model

Pricing	Standard: 350–500 CZK/hour. Deep cleaning: higher fixed packages.
Margin	Target gross margin: 25–40%, depending on cleaner cost and travel time.
Capacity	Growth depends on stable cleaners, backup workers and clear SOPs.
Sales focus	Recurring homes + Airbnb + small offices. Avoid one-off low-margin jobs.
Control	WhatsApp intake, calendar planning, cleaner scorecard, review tracking.

2030 realistic potential: 10–14M CZK/year gross revenue
